Aptitudes principales

Computer Networking

Virtualization

Secure Remote Access

Certifications

BeyondTrust Certified Administrator - Privileged Remote Access

Rogert Guevara Uzcátegui

Network Solutions Engineer

Palma, Islas Baleares, España

Extracto

Mi enfoque es práctico: elijo la mejor herramienta para cada desafío. Disfruto diseñando redes con MikroTik, implementando seguridad perimetral con FortiGate y desplegando soluciones inalámbricas de alta capacidad con Ubiquiti. Mi pasión por la tecnología se extiende a mis aficiones: diseñando clústeres con Proxmox, gestionando aplicaciones en contenedores con Docker y explorando soluciones de red modernas como ZeroTier y Tailscale.

Experiencia

OmniAccess

4 años 7 meses

Network Solutions Engineer

marzo de 2024 - Present (2 años 3 meses)

Senior Service Delivery Network Engineer

enero de 2024 - marzo de 2024 (3 meses)

Palma, Balearic Islands, Spain

Service Delivery Network Engineer

noviembre de 2021 - diciembre de 2023 (2 años 2 meses)

Palma, Balearic Islands, Spain

SAMPOL DIGITAL SL

NOC N2

junio de 2020 - noviembre de 2021 (1 año 6 meses)

Palma, Balearic Islands, Spain

- Network monitoring and maintenance: Ethernet, CCTV, IPTV, VoIP, and Wireless
- L2 troubleshooting in multi-vendor environments
- Cisco & Huawei Wireless LAN Controller (WLC) administration
- Switching configuration and management (Cisco & Huawei)
- Core network operations with Cisco and MikroTik (RouterOS)
- GPON network provisioning

- Virtualization and VM management in Proxmox and VMware

Freelance (Self employed)

Network and systems specialist

2010 - 2021 (11 años)

Palma, Balearic Islands, Spain

- Infrastructure & networks: Setup, maintenance, and management of virtual servers (VMware, Hyper-V), Raspberry Pi (thin clients), and RouterOS (Mikrotik) systems. Implementation of video surveillance and audio/video solutions, Ubiquiti Unifi AP controllers, and 3CX phone systems.

- Connectivity & security: Centralization of OpenVPN networks with Mikrotik equipment. Configuration and installation of Ubiquiti Airmax antennas. Management of LAN networks, OpenWRT routers (basic firewall, port forwarding), and WiFi networks. On-site support and diagnosis of LAN networks.

- Development & specialized projects: Development of web application for real-time supervision of photovoltaic inverters.

Comprehensive technical support: Provision of technical support in photovoltaic farms, and enterprises (diagnosis, error reporting). Repair and maintenance of computer hardware and software.
